

Spend less time counting cash  
and more time serving customers

# Count your cash drawer in under a minute.

Multiple count types to fit your cash counting processes.

Connected solution to a desktop printer or back office system.

Memory capacity for up to 150 tills.

Intuitive navigation guides you through your count.

Ability to count non-cash items such as coupons and tokens.

Integrated keypad for easy entry of balances, operator IDs and other reference numbers.

# How much time is spent in your business counting cash?

Cash continues to be the most popular method of payment and is the most economical for retailers. Our T-i<sup>x</sup> electronic cash counters are specifically designed to benefit companies operating in cash heavy environments.

## Quick, accurate cash counting

- ✔ Count your till drawer in less than a minute
- ✔ Time saved can be focused on customers and business management

## Reduce till loss

- ✔ T-i<sup>x</sup> is portable for quick and easy spot audits
- ✔ Frequent counts drive employee accountability
- ✔ Audit trail via printed receipts or connection to back office systems

## Manage information

- ✔ A connected solution provides detailed and valuable management data allowing discrepancies to be rapidly acted upon

# Future-proof technology; *a solution that can change when circumstances change.*

Since inventing the technology over 30 years ago, Tellermate continues to develop market leading, innovative cash counting solutions.

Our future-proof T-i<sup>x</sup> cash counting range does not need to be replaced when a currency changes or when your business requires updates to your current software. A simple update is all that you need.

## Get connected

Tellermate can provide the integration you need for a connected cash management solution.

Multiple connectivity options are available to suit your requirements:

Ethernet

USB

Wi-Fi

Ability to track all data through the cloud on your computer, tablet or smart phone

We adapt to your needs by providing connectivity without interrupting or changing your processes.

As well as connectivity options, integrating your T-i<sup>x</sup> with other equipment provides you and your business with a comprehensive solution at the point of sale:

**Printers** – Our selection of printers connect to your T-i<sup>x</sup> cash counter, providing you with a visible audit trail count by count.

**Tellercups** – Tellermate provides till inserts that fit inside your existing cash drawers, to help you count your coins faster.

# Tailored solutions to meet your business needs.

Tellermate knows that one size does not fit all. Whatever your requirements, your T-i<sup>x</sup> cash counting solution can be designed to fit in with your business needs and working environment. Recognizing that every business will have its own challenges and opportunities, we take a step by step approach to provide the right solution.

## Analyze

Review your existing cash management processes to find the right solution for your business and agree on the steps required to demonstrate a robust business case.

## Pilot

Pilot T-i<sup>x</sup> in your stores to demonstrate the benefits and quality of a Tellermate solution.

## Implement

Implement a tailored solution with minimal disruption while giving your employees the training and confidence to use it.

## Support

Our dedicated customer service team is always there to support you.

All Tellermate electronic cash counting equipment comes with a comprehensive product warranty. Our highly knowledgeable and multi-lingual Customer Service team is always at hand to help.

Tellermate is a leading provider of cash management solutions to the retail, grocery, food service and financial industries. We help our global portfolio of blue chip clients increase their profitability by deterring fraudulent activity, saving vast amounts of time and providing valuable real-time cash management information.

Major benefits of using cash counting technology can be realized by integrating with your back office systems. Tellermate provides a range of software solutions that will help you save time, eliminate errors, reduce cash loss, drive adherence to process and provide valuable management data.

The T-safe range from Tellermate has been designed to provide a secure and intelligent location for your cash in a compact design suited for the point of sale environment. In busy, high risk environments, T-safes will help to protect your staff and your profits.

T-ice has been designed by Tellermate to significantly streamline your current cash counting processes. Our intelligent cash drawer will let you know exactly how much cash is in your drawers at any time.

We will help you find the best solution to suit your business needs. For more information please contact us.
